The other component at this grade is the ORIGOmath teacher sourcebook. Visit www.origomath.com for more information about the program and other innovative mathematics resources by ORIGO Education.

a real alternative for teachers seeking a better way to teach computation
the only supplemental program to provide a developmentally appropriate sequence to develop fluency in computation developed by a team of educators who have a proven track record of translating suitable research findings into effective classroom practice

a comprehensive package of student and teacher resources that together provide all the necessary mathematics content, methodology, and assessment

Product Code: OSJ 128 2

1. Three people equally share the cost of each of these gifts. Estimate how much each person will spend.

   a. About $____ each
   b. About $____ each
   c. About $____ each
   d. About $____ each

2. Four people equally share the cost of each of these gifts. Estimate how much each person will spend.

   a. About $____ each
   b. About $____ each
   c. About $____ each
   d. About $____ each

The cost of each gift in Question 2 was shared equally by five people. About how much did each person pay?
1. Spread the cost of these equally over four months. Estimate the amount of each repayment.

   a. About $\_\_\_\_\_\_\_\_ each
   b. About $\_\_\_\_\_\_\_\_ each
   c. About $\_\_\_\_\_\_\_\_ each
   d. About $\_\_\_\_\_\_\_\_ each

2. Spread the cost of these equally over five months. Estimate the amount of each repayment.

   a. About $\_\_\_\_\_\_\_\_ each
   b. About $\_\_\_\_\_\_\_\_ each
   c. About $\_\_\_\_\_\_\_\_ each
   d. About $\_\_\_\_\_\_\_\_ each
